A MESSAGE FROM THE SUPERINTENDENT

What an exciting school year the 1979-80 is! Joseph City Schools is in a continual upswing of outstanding development in both academic and physical facilities.

On the high school level, a new principal, counselor and art teacher helped begin the new school year. An expanded art and math program enriched the curriculum while a new athletic facility enhanced the football and baseball program.

In keeping with our proud tradition of excellence, a district auditorium-theatre was added to enrich the cultural advantages of the students and community. It is because of you, the students, teachers, parents and friends of Joseph City Public Schools who have so generously supported the activities in this educational institution that excellent and outstanding programs are consistently being maintained and expanded.

The elementary and junior high building program is being accomplished with many improvements on the playground and in the buildings. A complete and new educational image is developing. State achievement scores are up in third grade reading and fifth grade mathematics. What a commendable job the students and staff are doing!

There are ambitious plans to further educate our students and serve the people of Joseph City. I have complete confidence that you will help us achieve our goals and plans to improve an already excellent school system. I have not been disappointed in efforts expended in the past and it is certain that the history of the Joseph City Schools indicate that we will continue to make progress a reality!

I want to thank each of you for a wonderful year and for your ideas for the tremendously exciting future that is anticipated for the 1980's.
